Little effort + maximum effect

Take advantage of a computer weekend in the relaxing atmosphere of our office.

For all topics of training there are standard courses lasting one or two days from 9am to 4pm (or by personal arrangement).

You can arrange individual courses for yourself or for small groups.

With a little snack in the groups break you can start your work again with a refreshed mind.

Your days of training can be split in halves (morning, afternoon or evenings).

Tailor made + flexible

You will receive your training in our office in small groups of 4 to 6 people: courses lasting on to three days, weekend workshops and a computer meeting are on offer.

Individual training can take place at your home using your own laptop or PC.

If wanted companies can receive inhouse-training, individual coaching and advice.

If you like you can contact us if you only want to „repair“ some of you „weak points“ with the PC.
